SHIFTING OF THREE VILLAGES IN MUNDARGI TALUK DUE TO SUBMERSION UNDER TUNGABHADRA PROJECT.

*Q.—602. Sri C. S. HULKOTI (Mundargi).—

Will the Government be pleased to state:—

(a) whether they are aware that three villages in Mundargi Taluk were required to be shifted from the present sites to some other sites on account of the submersion of the said villages due to Tungabhadra Dam Project ;

(b) whether they are aware that no active steps have been taken to shift especially Singatalur and Hesarur villages which are affected severely by the submersion ;

(c) the reasons for the delay in taking early steps to shift the villages ;

(d) whether they are aware that the people of Singatalur are put to great hardship during the rainy season when some of their residences are actually in deep water ;

(e) whether they have issued orders to shift the villages to the new sites and new buildings are constructed immediately ?

A.—Sri M. N. NAGHNOOR (Deputy Minister for Public Works).—

(a) Yes.

(b) No. It is not a fact. Government has taken appropriate steps in this direction.

(c) The villagers of Singatalur and Hesarur are not inclined to shift to the new sites selected.

(d) Yes.

(e) Yes.

Sri C. S. HULKOTI.—May I know the appropriate action taken in the rehabilitation of these villages—Koralahalli, Kesarur and Singatalur?

† Sri M. N. NAGHNOOR.—Sir, with regards Hesarur village sites have been selected and about 30 acres has been ear-marked and it has also been approved by the Deputy Commissioner. In the meanwhile, one Mr. Kaddi has objected to the acquisition of the site and for that it is pending. Anyway, it is going to be pushed through. As regards, Karalahalli, the site has been selected and 9 acres 8 guntas has been acquired and the District Health Officer has approved of this. As regards Singatalur, an area of 3 survey numbers have been acquired and those persons who have been evicted are proposed to be given financial assistance of Rs. 2,000 under the Rural Housing Cess. That is the position.

Sri C. S. HULKOTI.—Are Government aware that they are not inclined to shift to the selected sites and what steps are proposed to be taken if they are not willing to shift?

Sri M. N. NAGHNOOR.—The Deputy Commissioner and the Health Officer have recognised that these are the suitable sites and we will do our best to induce the people to shift to those places.

Sri C. S. HULKOTI.—Is it a fact that the Tungabhadra Board has taken decision to rehabilitate the whole village of Kesarur?

Sri M. N. NAGHNOOR.—Yes, Sir. It is true that the T.B. Board has taken a decision in July 1959 that this village has to be rehabilitated.

Sri C. S. HULKOTI.—Is the Government aware that the Assistant Engineer has made only a survey for partial rehabilitation?

Sri M. N. NAGHNOOR.—Sir, it is an information to me and we will take appropriate steps to rehabilitate the whole village.

Sri C. S. HULKOTI.—Will the Government instruct the Deputy Commissioner to survey the whole village to be rehabilitated?

Sri M. N. NAGHNOOR.—Yes Sir, but, I believe these 30 acres are sufficient to rehabilitate the village. If that is not sufficient, we will issue suitable instructions to the Deputy Commissioner.

Sri V. S. PATIL.—Sir, regarding these three villages, rehabilitation is done on some basic principles adopted by this Government. May I know what are those basic principles for shifting these villages?

Sri M. N. NAGHNOOR.—Sir, this is an irrigation project and these villages are affected by fore shore water of Tungabhadra. There are set rules and regulations to rehabilitate them which are already circulated to all the Members.

Sri G. B. SHANKAR RAO.—Can you force people to accept the sites that you have selected for them?

Sri M. N. NAGHNOOR.—We do not force them to accept. But when we take pains and select some suitable sites, they must also give respect to our advice.

Sri V. S. PATIL.—May I know if Government is going to have some houses of specific designs so that when new villages are planned, the houses would look orderly and be convenient from all points of view?

Sri H. K. VEERANNA GOWDH.—There is no such proposal at present. Government goes to their aid by giving cash and other facilities, for starting schools or roads or constructing a temple and the like. The Hon'ble Minister seems to suggest type design houses. But such houses would have to be suitable to the people. But the suggestion might be considered by Government.

Sri V. S. PATIL.—We are generally complaining that our villages are not good, they are unsanitary and not clean and all that. Therefore when we are planning new villages, would it not be better to have houses of the proper type? What is the policy of Government in this respect?

Sri H. K. VEERANNA GOWDH.—There is no such policy at present. But the suggestion is a good one, I admit. But such type design houses should be acceptable to the villagers also. Then we can negotiate. All this takes time. But the suggestion would be considered.
